A transformative journey towards a brighter future

10th June 2019 was marked by the presentation of the annual budget by the Honourable Mr. Pravind Kumar Jugnauth, Prime Minister, Minister of Home Affairs, External Communications and National Development Unit, Minister of Finance and Economic Development of the Republic of Mauritius for the 4th consecutive year.

Against a backdrop of global economic warfare and challenging trade conditions, Mauritius' economy has defied the odds with its Real GDP growth estimated at 3.9% in FY 2018/19 ahead of the IMF projections of 3.3% for the global economy for the same period. In a bid to usher in a new era of development, the Minister announced multiple measures geared at laying the foundations for a stronger, innovation-driven and more inclusive economy. Several proposed measures are aimed at the lower middle class and vulnerable sections of the community thereby boosting their purchasing power by substantially reducing taxes on a number of household items. Other measures announced include massive investments in infrastructure such as extension of the airport, new roads and dams, improvements in drainage system - thereby creating employment and injecting new impetus into the economy. In addition, a Renewable Energy Roadmap will be devised to steer towards a greener and more sustainable economy.

Editorial (cont.)

The Minister flagged the importance of the financial services sector and highlighted the good repute of Mauritius as an International Financial Centre. He was comforted by the fact that the jurisdiction was shown not to have any harmful features in its tax regime and is rated as fully compliant with the OECD standards on transparency and exchange of information for tax purposes. In view of ensuring compliance with international best practices, the Tax Residency definition will be revisited, reforms will be made to the Partial Exemption Regime (introduced in last year's budget) and Controlled Foreign Company rules will be introduced. To instill further confidence from international investors, the AML and financial crime combating framework is being strengthened through the setting up of a Financial Crime Commission that will ensure greater co-ordination and coherence among the various investigative agencies (FIU, ICAC, FSC). For one of the fastest growing sectors of the economy, he announced the following trailblazing measures:

- Establishment of a new framework for fund administration and fund management
- Revamping the existing Special Purpose Fund regime to ease access to new markets
- FSC entering into an agreement with the Gujarat International Finance Tec-City to recognise Mauritian licensed funds and management companies as qualified to operate in the Gujarat jurisdiction
- The establishment of a regime for Robotics and AI enabled financial advisory services, a new licence for Fintech Service Providers, the introduction of Head Quartering of e-commerce schemes, the establishment of Crowd Funding as a new licensable activity
- The introduction of an “umbrella licence” for wealth management activities
- The introduction of new rules and an attractive tax regime to promote the development of the Real Estate Investment Trusts (REITs)
- Launch of a new trading platform at the Stock Exchange of Mauritius to enable medium sized profitable enterprise, currently not qualify for listing on the official and DEM markets, to raise capital
- The use of e-signatures and e-licences and a new Business Facilitation Bill to promote an even more business friendly environment

Furthermore, various income tax holidays will be introduced in respect of companies involved in innovation-driven activities, e-commerce platform, peer-to-peer lending, marina development and certain bunkering activities.

By and large, the Honorable Minister delivered a budget that touches the several facets of the economy based on the realities and challenges being faced by the island nation. Considering that this budget was the last budget exercise before the next general elections, it was commended as a balancing act between fiscal prudence and capital expenditure steering clear from excessive populist measures.

The Mauritius-Africa Fund will further expand its strategic partnerships with Pan-African and international multilateral development financial institutions, such as the Trade and Development Bank, AFREXIM Bank and 29 Fonds de Solidarité Africain to mobilize project finance for the benefit of Mauritian enterprises willing to expand in

FINANCIAL SERVICES

Creating New Opportunities

With a view to further develop the financial services sector and to strengthen the Mauritius International Financial Centre, the Honourable Prime Minister proposed a series of measures in his budget:

(i) To expand accessibility of our financial products across the globe.

To this end, he emphasised on the following:

- The establishment of a new framework for fund administration and fund management;
- The revamping of the existing Special Purpose Fund regime to ease access to new markets; and
- FSC entering into an agreement with the Gujarat International Finance Tec-City to recognize Mauritian licensed funds and management companies as qualified to operate in the Gujarat jurisdiction as well.

(ii) To diversify the product base of our IFC with the introduction of:

- new rules and an attractive tax regime to promote the development of Real Estate Investment Trusts (REITs);
- an 'umbrella licence' for wealth management activities;
- a scheme for headquartering of 'e-commerce' activities;
- a framework for Green Finance in line with the 'Marrakech Pledge' – a continental coalition of African Capital Markets Regulators and Exchanges committed to foster green financing on the continent; and
- a new trading platform at the Stock Exchange of Mauritius to allow medium sized profitable enterprises that do not qualify for listing on the official and DEM markets to raise capital and trade their shares.

(iii) To facilitate conduct of business in the sector by setting up a 'single-window system' at the FSC which will allow submission of documents for financial services and global business applications.

FINANCIAL SERVICES

The Prime Minister also proclaimed the following in order to develop the Financial Services Sector:

- The FSC will explore the convergence of Private Banking and Wealth Management licences.
- The Financial Services Act will be amended to introduce a scheme for the Head Quartering of E-Commerce activities in Mauritius.

Business Environment

(i) Increasing Protection to Minority Investors

To improve the safety net for minority investors, as recommended by the World Bank, the following measures will be undertaken:

- a) the Securities Act will be amended to ensure immediate disclosure to the public if the transaction has a value of at least 10% of the Company's assets;
- b) the Companies Act will be amended such that individual compensation of directors are disclosed in the annual report;
- c) the Companies Act will be amended such that dividend declared by the Board is paid within a maximum period of 15 months subject to solvency test;
- d) the Companies Act will also allow disqualification of a director upon a successful claim by shareholders; and
- e) the Listing Rules will be reviewed to provide for the requirement of obtaining shareholders' approval for Related Party Transactions, where the percentage ratios as specified in the Rules, represent 10% or more.

(ii) Resolving Insolvency

The Insolvency Act will be amended to allow an administrator to call separate meetings for different classes of creditors. The Creditors shall vote separately, and the Administrator shall ensure equal treatment for each class. The Administrator shall also ensure that creditors are not worse off than they would have been in a liquidation.

(iii) Sharing of Information to Expedite Doing Business

The Electronic Transactions Act will be amended to:

- a) include the possibility of sharing information electronically between public sector agencies and between public agencies and authorised institutions listed in the schedule to the Act; and
- b) use InfoHighway for the sharing of company information with all licensed commercial banks to facilitate due diligence requirements.

The Civil Status Act will be amended to expand the nature of information which can be shared.

FINANCIAL SERVICES

(iv) Introducing RIA for Business-Related Rule Making

A Regulatory Impact Assessment (RIA) framework for evidenced-based business-related rule making will be established in collaboration with the Organisation for Economic Co-operation and Development (OECD) for a cost of Euro 500,000 funded by the European Union (EU). The project is scheduled to start in September 2019.

(v) Expediting Dispute Resolutions

The Income Tax Act will be amended such that parties attempting a mediation or a conciliation or an arbitration be allowed a deduction from taxable income of an amount equivalent to 150% of the case filing fee.

Fintech

In a bid to position Mauritius as a Fintech hub in the region, the following measures will be implemented by the FSC:

- Establishment of a regime for Robotics and AI-enabled financial advisory services;
- Introduction of a new licence for Fintech Service providers;
- Encouraging self-regulation for Fintech activities in consultation with the United Nations Office on Drugs and Crime;
- Introduction of the use of e-signatures and e-licences on a pilot basis; and
- Creation of Crowd Funding as a new licensable activity.

To boost investors' confidence in our financial services sector, the regulatory framework will be reinforced along these lines:

- Financial Crime Commission will be set up to act as an apex body to ensure greater coordination and coherence among the relevant investigative bodies in dealing with financial crimes;
- FSC will develop a financial data handling code of conduct to address cyber risks; and
- The Bank of Mauritius, FIU and FSC will introduce industry-wide Practice Notes with respect to handling clients' requests.

Sandbox Licence, Blockchain and Crypto Currency

In line with the intention to developing Mauritius as an online betting platform for foreigners, the Economic Development Board (EDB) would be issuing a "Sandbox Licence" to enable interested parties to develop a licensing programme that would include the elaboration of an appropriate legal framework, the choice of latest software solutions for real-time tax deduction at source for every online betting transaction and exploring risk-assessed Blockchain and Crypto Currency initiatives.

Moreover, the EDB will consult the United Nations Office on Drugs and Crime (UNODC) and relevant stakeholders with a view to propose appropriate amendments to the Economic Development Board Act to upgrade the Regulatory Sandbox Licensing Framework for Fintech Activities.

GLOBAL BUSINESS

Tax Residence

To ensure compliance with International Best Practices and international standards, the following measures were announced, and substantial amendments will be made to Section 71 of the Financial Services Act, where applicable:

(i) Tax Residency of Companies

The Income Tax Act will be amended to implement the recommendation of industry stakeholders regarding the determination of tax residency for companies. Thus, if a company is centrally managed and controlled outside Mauritius, it shall not be considered as tax resident in Mauritius.

(ii) Reforms to the Tax Regime of Global Business Companies

a. Partial Exemption Regime

The Income Tax Regulations 1996 will be amended to:

- define the detailed substance requirements that must be met in order for a taxpayer to enjoy the partial exemption benefit; and
- lay down the conditions that must be satisfied where a company outsources its core income generating activities, namely:
 - i. the company must be able to demonstrate adequate monitoring of the outsourced activities;
 - ii. the outsourced activities must be conducted in Mauritius; and
 - iii. the economic substance of service providers must not be counted multiple times by multiple companies when evidencing their own substance in Mauritius.

The partial exemption regime will be extended to cover companies engaged in:

- i. leasing and provision of international fibre capacity;
- ii. reinsurance and reinsurance brokering;
- iii. sale, financing arrangement and asset management of aircraft and its spare parts, including aviation related advisory services.

b. Anti-abuse rule
